Philip C. Paradis

Objective I am a strongly motivated, team-oriented individual seeking a challenging position on a team dedicated to network management, server administration, technical services provisioning, and software development.

Work Experience **ClassHelper.org**
August 2007 - Present
Atlanta, GA

Founder and System Administrator

Responsible for all software development and content management for ClassHelper.org, a nationally recognized educational resources site for teachers, parents, and students. Built the site's community from a few visitors per month to over 30,000 visitors and 170,000 global page impressions per month.

United States Navy – Submarine Force

September 2006 - March 2009
SSBN 739 USS Nebraska
Groton, CT and Bangor, WA

Electronics Technician, Third Class

As LAN administrator, maintained 110 networked computer workstations and server systems running five different operating systems (Windows 2000, Windows Server 2003, Solaris, HP-UNIX, SCO UNIX). Supervised LAN division personnel in the daily operations and maintenance of internal combat communications and data management systems.

PaleGray.net, LLC

September 2004 - August 2006
206 Jody Lynn Ct.
Woodstock, GA 30188

Technical Manager

Managed a small team of technical consultants, performing various business I.T. services, including software development, web hosting, and server administration.

Independent Consultant

January 2001 - August 2004
Atlanta, GA

Business networking, software development, web applications, database development, and server administration.

Premiere Technologies, Inc.

February 2000 - December 2000
3399 Peachtree Rd NE
Atlanta, GA 30326

Telecommunications Software Developer

Developed telephony software, including the VRU systems that Bank of America and Suntrust Bank used to drive their telephone banking systems in the late 1990s through early 2000s.

CompUSA, Inc.

March 1999 - January 2000

Public Sector Accounts Manager for State of Georgia Accounts

During and following CompUSA's recentralization of all corporate, government, and education sales activities to a central call center in Dallas, TX, managed all aspects of bid preparation and submission for public sector sales. Routinely traveled to Dallas to coordinate sales activities and troubleshoot technical issues with SAP system integration and order management.

Technical Skills

Operating Systems – Windows Server editions (NT4 – Server 2003), Windows workstation editions (Windows 3.1 – Vista), Ubuntu Linux Server 6 – 8.10, Debian Linux 3 – 5, CentOS 5 (Red Hat Enterprise Linux clone), Sun Solaris 10, Sun OpenSolaris.

Programming/Markup Languages – Perl, PHP, Visual Basic 6, HTML, CSS, Javascript, limited C/C++ and x86 ASM.

Database Environments – Postgresql, MySQL, Microsoft SQL Server, limited Oracle.

Hosting Environment – Apache 1.x/2.x, Microsoft IIS.

Virtualization Software – Vmware Server 1.x/2.x, Vmware Workstation, Sun xVM Virtualbox, Xen.

Accomplishments

During my service in the United States Navy, I took a proactive interest in tutoring students in courses related to network administration and electronics theory. While serving in Groton, CT I accrued over 300 hours of volunteer community service. I hold an ASVAB score of 97. In the performance of my duties, I successfully maintained Secret and TS/SCI security clearances.

Education**US Navy Certifications and Courses**
